# Permit Pro®: Permit Management Platform

Complete Lifecycle Management. Total Digital Convenience.
Transform permitting with Process Pro permissions software that simplifies the permit lifecycle—from issuance and secure online transactions to real-time data access—all within a completely digital process designed to meet diverse operational needs.

How It Works

Reduce paperwork, administrative overhead, and the risks of loss, theft, and misuse with Permit Pro. By eliminating hangtags and stickers, it simplifies permitting for both motorists and agencies. A convenient self-service portal allows motorists to apply, pay, and renew permits online, while seamless integration with mobile and fixed LPR systems enables efficient, license plate-driven digital permitting.

Full Lifecycle Management
Complete Digital Process
Versatile Permit Options
Payment Processing
Waitlist & Priority Processing
Motorist Account Management

Designed for Success

- Centralized account management for motorists, fleets, tenants, and contractors
- Streamlined permissions management for meters, loading zones, and construction
